OUR INITIATIVES

We know our guests want to do the right thing for the planet and we also know you lead busy lives, so our chefs and managers do a lot of the work for you behind the scenes! From sourcing local products to composting food waste, our commitment to sustainability was formalized in alignment with sustainability goals.

OUR PROMISE

We commit to being responsible stewards, actively engaging our guests and staff in sustainable practices and programs that preserve the environment, are socially just, and are fiscally sound.

In collaboration with a stellar program, we strive to divert all our organic waste from the landfill. Pre- and post-consumer food scraps and compostable packaging is collected from our kitchen and service locations and then transported to the Compost facility. The resulting compost is then sold to garden centers, nurseries, landscapers and even some of the local farmers who grow produce for Colorado's kitchens.

We are committed to the State of Sustainability

We are committed to making environmentally- and socially-responsible decisions in all aspects of our special event and catering services. We are pleased to offer a seasonal menu, and continually strive to source locally, reduce waste, and minimize our impact on the earth while simultaneously upholding quality levels of food and service. Our executive chef would be glad to meet with you to customize a sustainable menu that fits your event.

As a partner to the campus, we are eager to support and play a helping hand in this commitment.
