IAFE Code of Show Ring Ethics

Exhibitors of animals at livestock shows shall always deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to all exhibitors who compete at the Larimer County Fair. All leaders working with 4-H exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Exhibitors who violate the code of ethics will forfeit premiums and awards and shall be prohibited from future exhibition in accordance with the rules adopted by the Larimer County Fair Board. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

- a. All exhibitors must present, upon request of Fair and Livestock Show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
- b. 4-H exhibitors are expected to care for and groom their animals while at the Fair.
- c. Animals shall be presented to the Fair where they will enter the food chain free of violative drug residues. The act of entering an animal in the County Fair is the giving of consent by the 4-H exhibitor for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial

statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event. If the laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise.

d. At any time after an animal arrives at the Fair, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian.

e. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, confirmation, or appearance, except external applications of substances to the hooves or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.

f. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.

g. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.

h. No 4-H exhibitor shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action. The application of this code of ethics provides for absolute responsibility for an animal's condition by the 4-H exhibitor whether he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.

i. The act of entering an animal is the giving of consent by the 4-H exhibitor to have disciplinary action taken by the Fair Executive Committee without recourse against the Fair Executive Committee.

The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the Fair Executive Committee may be published with the name of the violators in any publication of the International Association of Fairs and Expositions, including Fairs and Expositions and any special notices to members.

Musical Freestyle

1. Length of performance is to be between 2 and 2 ½ minutes. This is an individual competition. Any animal or human “props” should not distract from the main competitor.
2. This is a costume and music class. It is an individual demonstration of the rider’s ability with their horse. Each horse and rider will enter the arena and perform a pattern that they have created to the music of their choice. This is not categorized as a reining or dressage event but is open to the rider’s imagination. This class will combine the elegance and beauty as well as the power and strength of the horse, along with the stirring impact of music.
3. **All Horse Show, Exhibitor and Horse rules apply.**
4. All contestants must supply a digital copy of their music. **The music and riding pattern is to be submitted to The Ranch Administration Office by 5:00 p.m. on Friday, July 8th.** Please have your music clearly marked with your name and the name of your music.

3. Safety, cleanliness of stall areas, friendliness to visitors, good sportsmanship, and helpfulness to other 4-H members will be the prime emphasis for this award. The committee realizes parents need to help, but at a minimal level. Preference will be given to those clubs whose members either do things themselves or seek help from another 4-H member, rather than a parent or other adult.

Spirit of 4-H Award

1. A special award will be given in the Horse Department to an individual exhibitor who best represents the true spirit of 4-H.
2. Criteria for selection: Individual's display of safety, friendliness, good sportsmanship, and helpfulness to other 4-H members.
3. Selection of the winner will be made by a committee, based on votes cast by parents, leaders, spectators, and 4-H members. Cast ballots on official ballots. List reason why nominee should receive this special award. It is recommended that you nominate individuals in a 4-H club other than your own club.
