IAFE (International Association of Fairs and Expositions)

Code of Show Ring Ethics

The Larimer County Fair is a member of the International Association of Fairs and Expositions (IAFE) who has the IAFE National Code of Show Ring Ethics. No Participant shall be eligible to make an entry or compete, or having competed, be eligible to win a premium, if he/she has been disqualified from competing in a member show of the IAFE, or those Livestock Exhibition(s), Show(s), and Sales(S) that endorse The National Show Ring Code of Ethics, or has had a premium withheld or withdrawn on the grounds of rule violations involving deception, misrepresentation, fraud, sabotage, tampering or unethical fitting.

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured competition classes. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE Code of Show Ring Ethics," fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial and national levels.

All leaders working with junior exhibitors are under affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibitions in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

1. All exhibitors must present, on the request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
4. Animals shall be presented to show events where they will enter the food chain free of violative drug residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event.

If the laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory, to which it is sent, is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise. At any time after an animal arrives at the Fair, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian.

5. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, confirmation, or appearance, except external applications of substances to the hooves or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.

6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.

7. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.

8. No owner, exhibitor, fitter, trainer, or responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such an individual to disciplinary action.

9. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.

10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including Fairs and Expos and any special notices to members.

11. The act of entering an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

Musical Freestyle

1. Length of performance is to be between 2 and 2 ½ minutes. This is an individual competition. Any animal or human “props” should not distract from the main competitor.
2. This is a costume and music class. It is an individual demonstration of the rider’s ability with their horse. Each horse and rider will enter the arena and perform a pattern that they have created to the music of their choice. This is not categorized as a reining or dressage event but is open to the rider’s imagination. This class will combine elegance and beauty as well as the power and strength of the horse, along with the stirring impact of music.

3. All Horse Show, Exhibitor and Horse rules apply.

4. All contestants must supply a digital copy of their music. **The riding pattern and music is to be submitted online to rwdehn@aol.com by 5:00 p.m. on Friday, July 11th.** Please identify the title of the music and a drawing of the pattern.

2. Criteria for selection: Individual's display of safety, friendliness, good sportsmanship, and helpfulness to other 4-H members.

Junior Livestock Sale

Jr. Livestock Sale Committee

Wednesday, August 5th, 1:00 p.m.

1. The Jr. Livestock Sale Committee is designed to offer a market outlet for 4-H Market Project exhibitors and to provide individuals, groups, and businesses with quality livestock.
2. All animals must be shown at the 2026 Larimer County Fair and only those animals eligible from individual market classes will be able to sell. The respective species judge and/or the Livestock Sale Committee have the right to disqualify from the sale any animal that they deem unfit, under-finished or not market ready.
3. Exhibitors can sell only one animal in this sale. **Exhibitors must be present in the sale ring with their own animal as it is being sold.** If a 4-H member has more than one species qualified, they must choose which species they want to sell unless they have more than one Overall Grand or Overall Reserve Grand Champion. ***All Overall Grand and Overall Reserve Grand Champions of every market species must sell.**
4. **The top (28) twenty-eight quality meat entries in Chickens, Turkeys, Market Ducks, and Market Geese and Rabbits (4 pens) as determined by Fair Superintendent(s) are also eligible to sell.**
5. The sale order will be determined by a percentile ranking in each class and then will be determined by the Jr. Livestock Sale committee after all the species have shown.
6. All exhibitors that are looking to participate, regardless of species, in the Junior Livestock Sale MUST attend one of the two mandatory meetings hosted by the sale committee in late spring and early summer. A parent or guardian may also attend in the exhibitor's absence; no other outside parties (i.e. 4-H leaders, friends, or extended family) may pick up the packets. Failure to attend one of these meetings will result in the exhibitor being ineligible to participate in the Junior Livestock Sale. If unable to attend one of the mandatory meetings, the Chair or Vice Chair of the Junior Livestock Sale Committee must be notified by April 1st; it will then be up to the discretion of the entire voting committee if the exhibitor may receive an alternative option.
7.
